Hi Janice,

Thank you, I appreciate the task – we are having to cope with it in our spare time and the applicant keeps dripping more – I see there were another two highway submissions yesterday.

That makes it very difficult for local residents.

But ..... I can help with that because we have summarised our case in a 10 minute video ! – it covers the highway issue from minute 3 if you want to skip the Green Belt bit!

We are using this to explain our case local Councillors and all involved in determining the application.

Of course, if there is anything we have mis-understood or anything to discuss I am very happy to do so.

Regards
